

Program Coordinator I-II

June 2026

Supplemental Questionnaire

1. Describe your solid waste, recycling and composting services/programs, sustainability or environmental related work or volunteer experience.
2. Explain your experience with regulatory compliance programs such as implementation of Senate Bill 1383, EPR programs, regulatory reporting, or similar activities. Include in your response your experience managing data, including any experience you have interpreting technical data and creating reports for non-technical audiences.
3. Describe your experience and role in developing public education and outreach materials related to environmental programs, services or initiatives. In addition, please describe your experience participating, developing or coordinating community events, workshops, or similar public engagement type activities.
